Cancer Patient Support Services (CaPSS)

You're not alone on your journey. We're here to help.

Support

Cancer Patient Support Services (CaPSS) helps cancer patients and their families cope more effectively with the emotional and physical changes resulting from a cancer diagnosis. This innovative program is the first and only one of its kind in Pinellas County. CaPSS offers targeted support groups for patients and caregivers and is committed to treating the whole person - body, mind and spirit. Each group is led by qualified, licensed (or license-eligible) counselors. Spanish-speaking cancer counseling and support groups are also available. CaPSS also offers individual and family counseling to Morton Plant Mease cancer patients, their families and significant others that focuses on coping with and adjusting to living with cancer. All services are free of charge.

- All Cancer Support Group: For men and women who are coping with cancer
- Caregiver Support Group: For friends, family and loved ones who are providing caregiving and support to a patient
- Luna de Pinellas: A support group in Spanish for cancer patients, survivors, their immediate family and close friends
- Prostate Cancer Discussion Group: For males patients only
- Women's Cancer Support Group: For women of any age and any type of cancer

Education

The Community Cancer Education sessions feature cancer-related information provided by physicians and other health care professionals. All cancer patients, family members and friends in the community are welcome to attend.

Knowledge is power. The *Breast Cancer Patient Handbook* was designed to provide information on what patients need to know when they are first diagnosed. The handbook includes educational information about breast cancer, websites and community resources.

Cancer-related books and material are available to patients, families and the community at no charge in the Evelyn R. Simmers Oncology Resource Libraries located at Morton Plant Hospital in the Axelrod Pavilion on the 1st floor, and at Mease Countryside Hospital in the Shaffer Tower on the 4th floor. CaPSS offices are located on the 2nd floor of the Axelrod Pavilion at Morton Plant Hospital and the 4th floor at Mease Countryside Hospital.

Patient Navigation for Breast

After a patient is diagnosed with breast cancer at Morton Plant Hospital, the CaPSS breast cancer navigator, Agnes Jastrzebski, RN, CBHN, Breast Care Nurse Navigator, provides individualized guidance. She follows patients throughout every aspect of treatment and coordinates their care, including any necessary tests, treatment and follow-up care prescribed by the patient's team of specialists. Bilingual (English-Spanish) navigators are available. Ms. Jastrzebski can be reached at (727) 298-6800.

Events

CaPSS regularly sponsors special programs and events free of charge:

- Make-up, skin care and hairstyle workshops: American Cancer Society's "Look Good Feel Better"
- Weekend retreat for adult cancer survivors: Camp Living Springs
- A fun day at the park sponsored by Mease Hospitals Volunteer Resources: Celebration Picnic
- Annual CaPSS "Tree of Hope" event: Holiday celebration
- Morton Plant Mease physicians provide free skin cancer screenings: Melanoma Monday, first Monday in May
- Morton Plant Mease and the American Cancer Society's Relay for Life: Dunedin Relay for Life
- Annual walk/run to benefit the Florida Suncoast affiliate of Susan G. Komen: Race for the Cure®

Locations

Axelrod Pavilion at Morton Plant Hospital
400 Pinellas St., Clearwater

Mease Countryside Hospital
3231 McMullen Booth Road, Safety Harbor

Contacts

Cancer Patient Support Services (CaPSS) offers individual counseling and support services to all Morton Plant Mease cancer patients, their families and friends. Services are absolutely free. Call the CaPSS office at (727) 462-2125.

To stay up-to-date with CaPSS activities, visit the new website at BayCareCaPSS.org. For more information about Cancer Patient Support Services, call (727) 462-2125.

Cancer Resources

Cancer Agencies

American Cancer Society

Leading cancer nonprofit organization providing information, education, programs, resources and support
(800) ACS-2345 | Cancer.org

American Institute for Cancer Research

This not-for-profit health charity funds research and sponsors educational programs relating to the link between diet, nutrition and cancer prevention and treatment. Offers free educational brochures and nutrition hotline.
(800) 843-8114 | AICR.org

Bloch Cancer Hotline; R.A. Bloch Cancer Foundation

A totally free service (cash donations are never solicited) operated by volunteers who have had cancer. The goal is to match the newly diagnosed patient with an individual who has recovered from the same type of cancer.
(800) 433-0464 | BlochCancer.org

CancerCare

A national nonprofit organization providing free professional counseling, educational programs, practical help and financial assistance.
(800) 813-HOPE (4673) | CancerCare.org

CancerCare Copayment Assistance Foundation

A nonprofit organization that helps cancer patients afford copayments for chemotherapy and targeted treatment drugs, ensuring their access to care for prescribed treatments.
(866) 55-COPAY (866-552-6729) | CancerCareCopay.org

Cancer Support Community

In July 2009, The Wellness Community and Gilda's Club Worldwide joined forces to become the Cancer Support Community. The CSC is an international nonprofit dedicated to providing support, education and hope to people affected by cancer. CSC offers personalized services and education for all people affected by cancer.
(888) 793-9355 | CancerSupportCommunity.org

CenterWatch

The leading source of clinical trials information for both clinical research professionals and patients.
10 Winthrop Square, 5th floor, Boston, MA 02110
CenterWatch.com

Fertile Hope

A national LIVESTRONG initiative dedicated to providing reproductive information, support and hope to cancer patients and survivors whose medical treatments present the risk of infertility.
(888) 994-HOPE | FertileHope.org
(855) 220-7777 | Livestrong.org

Mautner Project

The Mautner Project of Whitman-Walker Health is committed to providing direct client services to LGBT people with cancer, health education and workshops to the community, and educating health care professionals about the unique health needs of the LGBT community.
(202) 745-7000 | Whitman-Walker.org

National Comprehensive Cancer Network (NCCN)

NCCN is a not-for-profit alliance of 23 of the world's leading cancer centers and is dedicated to improving the quality and effectiveness of care provided to patients with cancer. Through the leadership and expertise of clinical professionals at NCCN member institutions, NCCN develops resources that present valuable information to the numerous stakeholders in the health care delivery system.
(215) 690-0300 | NCCN.com

National Cancer Institute (NCI) at the National Institutes of Health (NIH)

The NCI coordinates the National Cancer Program, which conducts and supports research, training, health information dissemination and other programs with respect to the cause, diagnosis, prevention and treatment of cancer, rehabilitation from cancer, and the continuing care of cancer patients and the families of cancer patients.
(800) 4-CANCER or (301) 496-4164 | Cancer.gov

The National Lymphedema Network (NLN)

Founded in 1988 to provide education and guidance to lymphedema patients, health care professionals and the general public by disseminating information on management of primary/secondary lymphedema and related disorders, and providing education in risk reduction practices for all individuals at risk for or affected by lymphedema.
(800) 541-3259 | LymphNet.org

Brain Cancer

American Brain Tumor Association

Provides information about all types of brain tumors, including those that are malignant, nonmalignant, primary or metastatic. Also includes information on new treatments and help with many aspects of living with a brain tumor.
(800) 886-2282 | ABTA.org

Brain Tumor Alliance (formerly Miles for Hope)

Brain Tumor Alliance's Mission is to provide emotional and financial support for families affected with brain tumors while also raising awareness and funding for research and clinical trials.
(727) 781-4673 | MilesForHope.org

National Brain Tumor Society (NBTS)

NBTS is committed to finding better treatments, and ultimately a cure, for people living with a brain tumor today and anyone who will be diagnosed tomorrow.
BrainTumor.org

Cervical Cancer

The National Cervical Cancer Coalition (NCCC)

The National Cervical Cancer Coalition (NCCC) was founded in 1996 as a grassroots nonprofit organization dedicated to serving women with, or at risk for, cervical cancer and HPV disease.
(800) 685-5531 | NCCC-Online.org

National Breast and Cervical Cancer Early Detection Program

Provides breast and cervical cancer early detection testing for low-income, underserved, underinsured and uninsured women. This program was created by the Centers for Disease Control and Prevention (CDC) in 1991.
(800) CDC-INFO | (800) 232-4636
Cancer.org/Healthy/FindCancerEarly/WomensHealth/EarlyDetectionOfSpecificCancers/nbccedp

Colon Cancer

Colon Cancer Alliance

Through patient support, education, research and advocacy, this national not-for-profit organization is committed to increasing screening rates and survivorship for those affected by colon cancer.
(877) 422-2030 | CCAlliance.org

Leukemia and Lymphoma

Leukemia & Lymphoma Society

Offering a variety of services to patients and families touched by blood cancers, including leukemia, lymphoma and myeloma. Services include peer support, education, financial assistance and an information resource center.
(800) 955-4572 | LLS.org

International Myeloma Foundation

An international organization committed to finding better treatments and a cure. They offer a patient guide, handbooks, a hotline and a quarterly newsletter.
(800) 452-2873 | Myeloma.org

Multiple Myeloma Research Foundation (MMRF)

MMRF is the world's number one private funder of multiple myeloma research, using a new medical research model and committed to finding a cure.
TheMMRF.org

Lung Cancer

Lung Cancer Alliance

This national nonprofit organization offers education and support programs, dedicated to patient support and advocacy for people living with or at risk for lung cancer.
(800) 298-2436 | LungCancerAlliance.org

Oral, Head and Neck Cancer

Support for People with Oral and Head and Neck Cancer (SPOHNC)

SPOHNC is dedicated to raising awareness and meeting the needs of oral and head and neck cancer patients through its resources and publications.
SPOHNC.org

Ovarian Cancer

CM Celma Mastry Ovarian Cancer Foundation (CMOCF)

The Celma Mastry Ovarian Cancer Foundation was started in 2003 by family and friends of Celma to help other women who were also suffering with this "silent killer." In 2015, Ovacome merged with CMOCF.
(863)-381-2034 | OvarianCancerFoundation.org

Facing our Risk of Cancer Empowered (FORCE)

The only national nonprofit organization devoted to hereditary breast and ovarian cancer support, education, advocacy, awareness and research.
Toll-free Helpline: (866) 288-RISK (7475) | FacingOurRisk.org

National Ovarian Cancer Coalition

The largest ovarian cancer organization raises awareness about ovarian cancer and promotes early detection and education. The Coalition is committed to improving the overall survival rate and quality of life for women and families living with the disease.
(888) OVARIAN (888-682-7426) | Ovarian.org

Ovarian Cancer Research Fund Alliance

Ovarian Cancer Research Fund (OCRF) and the Ovarian Cancer National Alliance (OCNA) have led the way in research, advocacy and support for patients and their families for over 22 years. In January 2016, OCRF announced it joined the National Ovarian Cancer Alliance (NOCA) together to form Ovarian Cancer Research Fund Alliance (OCRFA). Its mission is to fund scientific research that leads to more effective identification, treatment, and ultimately a cure for ovarian cancer.
(800) 873-9569 | OCRF.org | OvarianCancer.org

Ovacome

2015 merged with Celma Mastry Ovarian Cancer Foundation.

SHARE: Dedicated experienced support for women facing breast or ovarian cancer

A supportive network and community of women affected by breast or ovarian cancer.

Toll-free Helpline: (866) 891-2392 | (844) ASK-SHARE

ShareCancerSupport.org

Pancreatic Cancer

Pancreatic Cancer Action Network

This national nonprofit organization includes a nationwide network of people dedicated to working together to advance research, support patients and create hope for those affected by pancreatic cancer.

(877) 272-6226 | PanCan.org

Prostate Cancer

Prostate Cancer Foundation

Firmly committed to curing prostate cancer, the Prostate Cancer Foundation is the leading philanthropic organization funding and accelerating research globally.

(800) 757-CURE (2873) | PCF.org

Cancer Blogs and Forums

Many of the major websites for breast cancer and other cancers also host discussion boards, blogs and online support via Facebook pages and other social media. Always check the toolbars, menus and sidebars for additional links.

BreastCancer.org — Discussion Boards

Information and resources for new patients and new members. Create an account and participate in a forum or chat room on a myriad of breast cancer topics.

Community.BreastCancer.org/Forum/131

Breast Cancer Support — Online Support Group and Chat

For patients with breast cancer and help for those who need support. Learn what to expect from surgery, radiation and chemotherapy. It's an online support group using "Meeting Place" software to connect breast cancer patients.

BCSupport.org

Cancer Survivor Network (American Cancer Society) — Discussion Boards

A public forum with discussion boards for all types of cancer.

CSN.Cancer.org/Forum

Nancy's List

A nonprofit organization committed to helping cancer patients find the resources they need so that no one will ever go through cancer alone. Nancy links readers to up-to-date articles and resources. Rich with information, inspiration and a free newsletter.

NancysList.org

Complementary Therapies

Exercise for Cancer Patients/Survivors

LIVESTRONG at the YMCA

A free strength/fitness program for cancer patients and survivors based on the curriculum developed by Stanford University; six locations in Pinellas and Pasco counties - call the YMCA.

Morton Plant Mease Wellness Centers

State-of-the-art Wellness Centers that go beyond aerobics and weight lifting to encompass total wellness - body, mind and spirit. Membership required. BayCare.org/Wellness-Centers

POWER: Program of Wellness Recovery

Specially designed for Morton Plant Mease breast cancer patients, the POWER program includes a physical therapy component, if needed, followed by six weeks of twice-weekly small group training sessions, led by a personal trainer with special training in cancer treatment and rehabilitation. The program focuses on stamina, flexibility and range of motion to improve overall quality of life. Offered at the three BayCare Wellness Centers. Oncologist referral required.

Mind/Body Connection

Deep-Breathing Exercises

Yoga, qi gong and many other traditions teach breathing exercises to bring more oxygen to the body to calm and rejuvenate, as well as to sharpen one's mental focus and reduce stress. For example: DrWeil.com/drw/u/ART00521/Three-Breathing-Exercises.html

Mindfulness Meditation Class

Mindfulness Meditation is a mind/body connection program for Morton Plant Mease cancer patients and family members. It's all about moment-to-moment awareness. Through Mindfulness Meditation, you can learn how to take better care of yourself and live a healthier life. It's a technique to help people cope with stress, anxiety, pain and illness. It meets once a week for four weeks, with each session building on the previous week's practice. For more information and to register, contact John Llauget, CaPSS, at (727) 462-2141.

Guided Imagery

Guided imagery has been shown to help increase one's hope and motivation, decrease depression and fatigue and reduce the perception of pain. CaPSS counselors are available to provide guided imagery to Morton Plant Mease cancer patients and families who are interested in learning this technique. For additional information, please contact a CaPSS counselor at (727) 462-2141.

Qi-Gong

This is a training program to introduce Morton Plant Mease cancer patients to the practice of qi gong (pronounced CHEE GOONG). Qi gong is an exercise that originated in China and has been practiced for thousands of years. This exercise method stresses mind/body awareness through breathing, proper posture and slow, gentle movement. For more information and to register, contact John Llauget, CaPSS, at (727) 462-2141.

Oasis Yoga

Yoga relieves stress, calms the mind and allows the body to heal. CaPSS is proud to announce that Morton Plant Mease cancer patients/survivors can take a free yoga class weekly, Thursdays, 1-2pm, in the 2nd floor conference room (Suite 280) of Axelrod Pavilion on the Morton Plant campus. For more information, contact Debra Wolf, CaPSS, at (727) 462-2145. Other forms of yoga and exercise classes are available at the Morton Plant Mease Wellness Centers for members and non-members (fee-based). BayCare.org/Wellness-Centers.

Nutrition

Dietitians

Management of cancer treatment side effects, weight loss, altered taste and credible nutrition information are essential in the cancer battle. The American Cancer Society offers personalized nutrition counseling. Call (800) 227-2345 and ask to speak with a dietitian. Monday-Friday, 8am-5pm
Cancer.org/Healthy/EatHealthyGetActive/GetActive/app/Meet-Our-Virtual-Dietitian.aspx

Dietary Supplements

Cancer patients need to be aware that the use of dietary supplements is often based on anecdotal evidence, i.e. people's (even doctors') personal experiences or opinions rather than objective, controlled research studies. It is always safest to talk with your doctor about the type and amount of each supplement you want to try.

Eating Hints

The National Cancer Institute has created a free booklet titled *Eating Hints: Before, During and After Cancer Treatment*. This booklet has hints about common types of eating problems, along with ways to manage them. Obtain it for free online.
Cancer.gov/Publications/Patient-Education/Eating-Hints

Psychosocial-Spiritual Support

CaPSS Counselors/Social Workers

The Cancer Patient Support Services (CaPSS) team is guided by a simple mission: "Enhancing the quality of life of people touched by cancer and those who care for them." With offices at Morton Plant and Mease Countryside hospitals, CaPSS counselors provide services to cancer patients in the hospital and in outpatient settings. All services are offered at no charge.

Breast Cancer – Genetic Testing/Counseling

Who is at risk for breast cancer?

All women are at risk for breast cancer. While men also get the disease, it’s approximately 100 times more common in women than in men. A woman’s risk of breast cancer also increases as she gets older. Women with a family history of breast or ovarian cancer are also at a higher risk of developing the disease. The more blood relatives you have with breast or ovarian cancer, the stronger your family history and the greater your risk. Sometimes a very strong family history is caused by a genetic mutation. While the majority of breast cancers are not caused by inherited risk, research has shown that approximately 7 percent of breast cancer cases are hereditary.

- Talk to your family members to learn your family health history.
- Talk to your doctor about your personal risk for breast cancer.
- Ask your doctor which screening tests are right for you, if you are at a higher risk.

How is this risk inherited?

We’re all born with two copies of about 30,000 different genes, one copy of each gene from our mother and one copy from our father. Two genes in particular, BRCA1 and BRCA2, normally work to prevent breast cancer. But in some cases, we can inherit a BRCA1 or BRCA2 alteration from either parent. This alteration or mutation interferes with the normal activity of the gene, making us more susceptible to breast cancer.

How do I know if I have inherited an altered gene?

To find out if you have inherited an altered BRCA1 or BRCA2 gene, you can undergo BRACAnalysis®. By analyzing a sample of your blood or saliva, scientists can determine any mutations in the BRCA1 and BRCA2 genes. A mutated gene indicates a genetic predisposition to hereditary breast cancer. It’s important to note that the presence of a BRCA1 or BRCA2 gene mutation is NOT a breast cancer diagnosis nor does it mean that a breast cancer diagnosis is inevitable.

If I have an altered gene, what are my options?

Identifying your inherited risk can help you and your doctor make the most informed decisions about your future health care. For example, a woman who knows she carries a BRCA mutation may start breast cancer screening at an earlier age. She may also choose to take risk-reducing medications or have preventive surgery.

Counseling Resources

InformedDNA

Genetic counselors are experts in hereditary cancer who will help you find out if your cancer or the cancer in your family is hereditary. InformedDNA is a nationwide network of genetics experts available by telephone.

(800) 975-4819 | InformedDNA.com

Facing Our Risk of Cancer Empowered (FORCE)

FORCE is the only national nonprofit organization devoted to hereditary breast and ovarian cancer. Their mission includes support, education, advocacy, awareness and research specific to hereditary breast and ovarian cancer. Their programs serve anyone with a BRCA mutation or a family history of cancer. FacingOurRisk.org

National Society of Genetic Counselors (NSGC)

The National Society of Genetic Counselors advances the various roles of genetic counselors in health care by fostering education, research and public policy to ensure the availability of quality genetic services. NSGC's Find a Genetic Counselor directory has been developed to assist physicians, patients and other genetic counselors in locating genetic counseling services. NSGC.org

Genetic Testing Facilities and Costs

Testing for abnormal BRCA1, BRCA2 and PALB2 genes is usually done on a blood sample taken in your doctor's office and sent to a commercial laboratory or a research testing facility. Several laboratories perform commercial BRCA1, BRCA2 and PALB2 testing, including Myriad Genetics, Ambry Genetics and Quest Diagnostics. They report results within two to four weeks. Abnormalities in other genes have also been associated with breast cancer risk. The cost of testing ranges from approximately \$300 to \$5,000, depending on whether you are being tested for only a specific area(s) of a gene known to be abnormal or if hundreds of areas are examined within multiple genes.

BRCAvantage

Quest Diagnostics offers genetic testing for hereditary breast and ovarian cancer (HBOC).
